

Exhibition Announcement

October 8, 2008

**Innovative Designs for the House & Home
October 30 - December 30, 2008
Embassy of Canada Prince Takamado Gallery**

Canadian designers are increasingly recognized in the global marketplace for their creative and innovative, yet practical and functional designs. The Embassy of Canada presents "Innovative Designs for the House & Home", an exhibition showcasing unique Canadian lifestyle products.

The event is linked to the "Kanada karada!" pavilion organized by BC Wood at 100% Design Tokyo during Tokyo Designers Week, taking place from October 30 – November 3.

With ingenious works by Vancouver's famed Judson Beaumont and sculptural furniture by Brent Comber, the exhibition will also feature a number of other intriguing home, outdoor, sports and leisure products.

Visitors will find a wide array of award-winning and design forward products ranging from parasols, artistic furniture, outdoor and sports equipment to high-end speakers using the finest available Canadian materials.

The exhibition will be of interest to both consumers and trade professionals.

For information on 100% Design and BC Wood, please visit <http://www.100percentdesign.jp/> and <http://www.bcwood.com/>.

The exhibition is held in cooperation with BC Wood.
